

Laseraid: Your Trusted Partner in Laser Device Servicing and Support Across Australia and New Zealand

In the competitive world of aesthetics, the performance of your laser devices directly impacts the quality of treatments and client satisfaction and thereafter your clinic profitability. Laseraid stands as the trusted partner for clinics across Australia and New Zealand, offering unparalleled expertise in laser device servicing and support.

With a commitment to excellence and a team of professionals who have truly mastered their craft, Laseraid ensures your clinic stays ahead in delivering outstanding results. Due to Laseraid's servicing and support they were appointed as Laser Clinics Group global servicing partner for all non-warranty Candela LHR devices commencing September 2024.

Tailored Service Solutions to Fit Your Clinic's Needs

Understanding that each clinic has unique requirements, Laseraid provides three flexible service options designed to keep your devices operating at their best:

1. Device Rental with Comprehensive Servicing

Access the latest laser technology without the significant upfront investment. For a fixed weekly fee, Laseraid supplies state-of-the-art devices along with full servicing. They handle all repairs and maintenance, allowing you to focus entirely on providing exceptional treatments to your clients, free from equipment worries.

2. Bring Your Own Device (BYOD) with Tailored Service Contracts

If you already own your equipment, Laseraid offers bespoke service contracts to ensure your devices remain in peak condition. Their manufacturer-trained engineers provide preventative maintenance, on-site support, and 24/7 assistance. This option minimises downtime and keeps your clinic running smoothly, tailored precisely to your operational needs.

3. Billable Service for On-Demand Needs

For clinics that require occasional expert support, their on-demand service offers quick, professional assistance without a long-term commitment. With transparent pricing and swift turnaround times, Laseraid's engineers are ready to address any issues, ensuring your devices are back in action promptly.

Expertise That Sets Us Apart

What truly distinguishes Laseraid is their team of university-educated, manufacturer-trained engineers who have dedicated years to mastering their craft. Their deep academic knowledge combined with extensive hands-on experience allows them to service a wide array of aesthetic devices with precision and care. This level of expertise ensures your equipment is maintained to the highest standards, maximising performance and longevity.

Continuing Support for Candela GentlePro Series

While many providers have stepped back from servicing the Candela GentleLase Pro, Laseraid remains steadfast in their commitment to these essential devices. Their engineers are specialists in Candela technology, offering comprehensive maintenance and repair services that keep your equipment functioning at its best. Clinics relying on the GentlePro Series can trust Laseraid for uninterrupted support, knowing that their devices are in the hands of experts who have mastered the intricacies of this advanced technology.

With the largest travelling service team in Australia, strategically located across WA, NSW, QLD, VIC, and New Zealand, Laseraid guarantees rapid response times. Their widespread presence minimises any disruption to your clinic's operations, ensuring you can continue to provide top-tier services to your clients.

Supporting Your Clinic Beyond Servicing

Laseraid's commitment to your success extends beyond device maintenance. Their online store offers a comprehensive range of consumables and accessories, ensuring your clinic is always fully equipped. With fast delivery and high-quality products, they help you keep your treatments running smoothly without interruption.

Partner with the Industry Leaders

By choosing Laseraid, you're aligning your clinic with the industry's leading provider of laser device servicing. Their flexible solutions, unmatched expertise, and dedication to excellence empower your clinic to deliver the best possible outcomes. They are not just a service provider—they are your partner in success, committed to helping you achieve and maintain the highest standards in aesthetic treatments.
