

## LA + EVOLUTION LASER CLINICS PRESS RELEASE

24<sup>th</sup> November 2024

### **Laseraid and Evolution Laser Clinics Announce Strategic Partnership to Offer SYLFIRM X RF Microneedling System**

**Sydney, Australia** — Laseraid, a leading provider of aesthetic technology solutions, is proud to announce an exciting new partnership with **Evolution Laser Clinics**, one of Australia's leading network of laser clinics. This joint venture has enabled Evolution Laser Clinics to acquire the **SYLFIRM X RF Microneedling System**, empowering their clinics to offer the **most advanced Microneedling RF technology** available on the market today.

With this groundbreaking partnership, Evolution Laser Clinics will become one of the first in the region to offer **SYLFIRM X RF Microneedling**, a cutting-edge device known for its precision in addressing a wide range of skin conditions and providing unparalleled results for clients. This advanced treatment opens up a new era of non-surgical skin rejuvenation, solidifying Evolution Laser Clinics' commitment to innovation and excellence in aesthetic treatments.

#### **Transforming Client Care with SYLFIRM X RF Technology**

The SYLFIRM X RF Microneedling System is globally recognised as one of the most advanced technologies in skin treatment. Its **dual wave radiofrequency (RF)** technology allows for the precise targeting of skin issues such as **pigmentation, rosacea, fine lines, acne scars, and skin laxity**, providing superior results with minimal downtime.

With the acquisition of this technology, Evolution Laser Clinics will offer a **revolutionary treatment option** that sets a new benchmark for RF Microneedling in Australia. This treatment option will be made available to all existing and new clients across Evolution Laser Clinics' extensive network of locations. This rollout begins with Miranda, Ultimo, Bondi Junction, and Rouse Hill, with additional clinics to follow, such as Penrith and Wetherill Park.

“We are thrilled to be partnering with Evolution Laser Clinics to bring this industry-leading technology to their clinics and clients,” said **Richard New, CEO** at Laseraid. “SYLFIRM X is a game-changer in skin treatment technology, and this partnership reflects our shared commitment to delivering the most advanced skin solutions to the aesthetics market.”

#### **A New Standard of Excellence for Evolution Laser Clinics' Clients**

With this partnership, **Evolution Laser Clinics** is not only elevating the standard of care but also offering its clients access to **next-generation RF Microneedling treatments**. The SYLFIRM X system represents a significant leap forward in aesthetic technology, giving clients access to treatments that are:

- **Non-invasive** yet highly effective.
- Suitable for **all skin types**, addressing a broad range of skin concerns.
- Minimal downtime, allowing clients to return to their routine swiftly.
- Proven to provide long-lasting results with a series of treatments.

“We are excited to be a provider of the SYLFIRM X RF Microneedling System and offer this advanced technology to our clients,” said **Ben Stewart, CEO** at Evolution Laser Clinics. “This

partnership allows us to deliver exceptional results that align with our ongoing mission to provide the best, most innovative skin treatments on the market.”
